Acknowledgment

1. Receipt of the amendment filed 12/12/05 has been acknowledged and entered. Claims 10-16, 20-21 and 26-33 have been canceled by previous amendment. In view of the amendment, the office is withdrawing the all objection and rejection. However, the office believes that figure 1 of Milazzo (USPN. 6,908,098 B2) is readable on some of the claims and the rejection is presented below.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 2, 8-9, 17-19, 22-23, and 34-35 are rejected under 35 U.S.C. 102(e) as being anticipated by Milazzo (USPN. 6,908,098 B2)

The applied reference has a common inventor with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

Milazzo discloses a towing assembly (figure 1), comprising:

- a. a hitch ball receiver having at least one cavity;
- b. a hitch ball (11);
- c. a member (22) connected with the hitch ball wherein the member is

engageable with the cavity to prevent rotation of the hitch ball during installation.

With regard to claims 2, 8-9, 17-19, 22-23, and 34-35 Milazzo discloses all of the claimed limitations.

Allowable Subject Matter

3. Claims 3-7 and 24-25 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
